

## HomeSupportDownloadsProfessional Products

### Downloads for Professional Products

Here you will find product updates and and related file downloads for all EDIUS, ADVVC, STORM 3G, STORM 3G Elite, STORM Mobile, HDSPARK, HDSPARK Pro, ProCoder and T2 products. Software for legacy Canopus products, including FIRECODER, HDSTORM, HDTHUNDER, Pegasus and Turbo can also be found here.

If you do not see downloads for a product that you own listed below, check your Product Registry to be sure that you have registered the product. To register a product, click "Register a Product" from your Product Registry.

If you are looking for product-related downloads for other Grass Valley product lines, please visit the Broadcast Product-Related Downloads section.

Please note: Products that do not have any available downloads, will not appear in the list below even if you have registered them.

EDIUS Software v8.11b0094 Full Installer

Windows 7 (64-bit) / Windows 8 (64-bit) / Windows 8.1 (64-bit) / Windows 10 (64-bit)

This update contains feature improvements, bug fixes, and is an official localized version.

##### About Your EDIUS ID

##### What's an EDIUS ID?

Your EDIUS ID links you to your EDIUS Pro license key the first time that you use EDIUS Pro. This provides much greater license security, and helps Grass Valley to combat piracy and illegal software use.

##### EDIUS ID and EDIUS

Authentication of your serial number with your EDIUS ID is necessary to launch EDIUS. The first time EDIUS is launched after installation, a serial number and EDIUS ID verification screen will appear. EDIUS Pro will launch if they can be authenticated.

##### EDIUS ID Online Functions

After successfully creating and registering your EDIUS ID, you will be able to access your personal EDIUS ID page online to do the following:

- Check your serial number information (confirmed after EDIUS verification)
- Receive a Trial Version license (a trial version license can be activated for each product only once)

##### How to create an EDIUS ID

Follow the instructions on the EDIUS ID registration page, enter the information required and then click 'EDIUS ID Registration'. You will then receive an email, with instructions explaining how to complete your registration.

##### Release Notes

View the release notes for EDIUS Software v8.11b0094.

## Update History

The following issues are fixed or improved in this version:

### EDIUS

Blocking noise appears in exported MPEG-1 clip.

EDIUS Pro 8 will not launch if off-line.

Takes long time to load certain AVC LongG clips.

Disc Burner fails to encode if 4:3 aspect ratio sequence is selected.

Chapter position shifts in a burnt Blu-ray disc.

EDIUS crashes when selecting menu item [Delete In/Out].

Project is still rendered locally even when checking [use XRE] in file export option.

(EDIUS Workgroup only)

Video shifts when playing back uncompressed 10-bit AVI.

Playback cursor moves backwards several seconds while playing a growing clip.

(EDIUS Workgroup only)

A clip marker that points to an XDCAM clip disappears when transferring the clip from XDCAM Pro Disc.

Undocked Source Browser window opens when opening a project.

User profile disappears from ConfigProfile.exe.

Field order and pixel aspect are detected incorrectly when certain H.264 MP4 clips are imported.

### GV Browser

CPU load increases if video clip playback is paused.

Video playback performance deteriorates if same frame size clips are played.

GV Browser crashes if Terms of Service link is clicked in the YouTube uploader.

GV Browser crashes if video clips are switched too quickly in the library window.

Clip thumbnail is corrupted if an HQX-with-alpha clip is displayed in the GV Browser pane in Source Browser.

## EDIUS Software v8.11b0094 Full Installer

Released: 2016-02-03

Size: 489 MB

[Download](#)

[Instructions](#)

**Important Note:** This package does not include the PDF manuals or DVD Menu Style application. You can download those separate via the Related Downloads links below.

Download EDIUS\_8.11\_0094\_DL\_Setup.exe to your local harddisk drive

Update EDIUS 8 by running the file EDIUS\_8.11\_0094\_DL\_Setup.exe

Follow the prompts to install the software. If you do not have QuickTime 7.7.6 or later installed on your system, the installer will prompt you to download the software from Apple's website. Once QuickTime has been installed, click "Retry" to resume the EDIUS installer.

When the installation is finished, reboot your PC.
