

Construction de la mire :

- Dans le pilote d'impression d'acrobat reader, il faut choisir "Aucune" en face de "Mise à l'échelle"
- Imprimer les 9 feuilles au format A4 (choisir pour "étendue": "Pages", et mettre 2 à 10)
- Découper là où c'est marqué (12 découpes en tout)
- Assembler les 9 feuilles sur un support rigide (planchette de bois, carton fort) en s'aidant des lignes de montage.
